SKILLS

PROGRAMMING

Languages:

- Python
- JavaScript
- HTML
- CSS

Frameworks & libraries:

- Django
- React
- Pandas
- MySQL

Tools:

- Git
- GitHub
- Bitbucket
- Jira
- Trello

COURSE

- DBMS
- OOPs
- DSA

EXPERIENCE

ONSITE ELECTRO SERVICE PVT. LTD. | SOFTWARE ENGINEER

January 2021 - Present | Bangalore, India

- Created the data visualization dashboard, implementing role-based functionalities for enhanced user experience.
- Engineered a robust feature within the existing website to streamline tech-support ticket creation from any page and consolidated tracking on a single dashboard, replacing the Trello software.
- Developed a dashboard for credit approval and allocation to B2B agents, resulting in a remarkable **95%** reduction in the lengthy email chains and delays associated with credit approval.
- Established a centralized portal for generating various reports, significantly minimizing the need for tech-support assistance in report generation.
- Orchestrated the implementation of the "akashvani" notification flow using Server Side Events, Redis, and Flask, enabling efficient task assignment, report downloads, and deadline notifications.
- Optimized the average execution time of ORM queries by an impressive **30%**.
- Integrated Razorpay payment links seamlessly into the website's payment flow.
- Orchestrated customer-oriented communication using Mandrill, VILPOWER, Redis, and Django.

MOUNT BLUE TECHNOLOGIES | SOFTWARE ENGINEER TRAINEE

October 2020 - January 2021 | Bangalore, India

- Worked as a trainee in MountBlue. Successfully built and delivered various individual and team projects in Python, Django, JavaScript, and React.

PROJECTS

DJANGO BACKEND Django | Python | ReactJS

- Worked on a major project to convert the backend from Node to Django.
- Build REST API for ReactJS frontend with MySQL database.

ACHIEVEMENTS

- 4 stars in Python on HackerRank
- 3 star coder on CodeChef
